

## Gaudi Private Tour

Barcelona is known as the capital of Catalan Art Nouveau, where the famous architect, Antonio Gaudi, lived and worked.

We will see his most emblematic works, such as Casa Mila, also known as "La Pedrera", and Casa Batllo on our tour along Passeig de Gracia.

We will then visit Parc Guell, a large garden park in which this genius strove to achieve the perfect integration of architectural elements in nature and which was declared an artistic monument and a human heritage site by UNESCO.

Next, we will see the Temple Expiatori de la Sagrada Familia, Gaudi's unfinished masterpiece, which is still being built in the same way as the cathedrals of the Middle Ages, with donations and private funds.
